

Frosted Diffusion

Thickness: Any thickness of glass
Standard Thickness: 3.3mm
Maximum Size: 60" x 132"

We offer standard stock MR11 1.370" diameter and MR16 1.965" diameter Borofloat® frosted diffusion lenses. Regular soda-lime or low iron soda-lime glass can also be sandblasted in any shape, size or thickness.

Features

- Outside diameter of the lens can be sandblasted, leaving the center clear
- Any pattern or shape can be sandblasted on glass
- Can be heat strengthened to increase thermal shock resistance and mechanical strength
- Can be fabricated to any shape or size under 60" x 132"
- Readily available of the shelf in MR11 1.370" diameter and MR16 1.965" diameter sizes
- Can be coated with a UV Blocking coating or a dichroic color coating
